THE GLOBAL GOALS

For Sustainable Development

What are the SDGs?

- In 2015, all nations came together to create a global plan for a better future.
- They agreed on 17 shared objectives, known as the United Nations Sustainable Development Goals, or **“SDGs.”**
- These goals are promises.
- They represent a promise to improve the lives of all people, while also protecting the planet we live on.

A challenging but inspiring mission, wouldn't you agree?
