Olafur Eliasson

13 CLIMATE
ACTION

**“ Olafur is an artist
from Denmark.”**

“ He makes **Art Installations
about Nature and our Planet! ”**

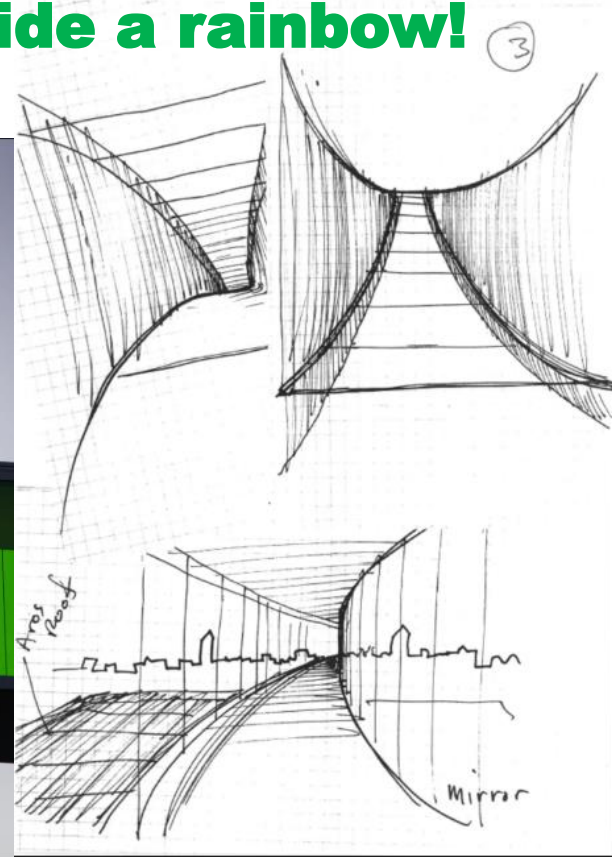

**“ He loves water, light,
ice, and colors.”**

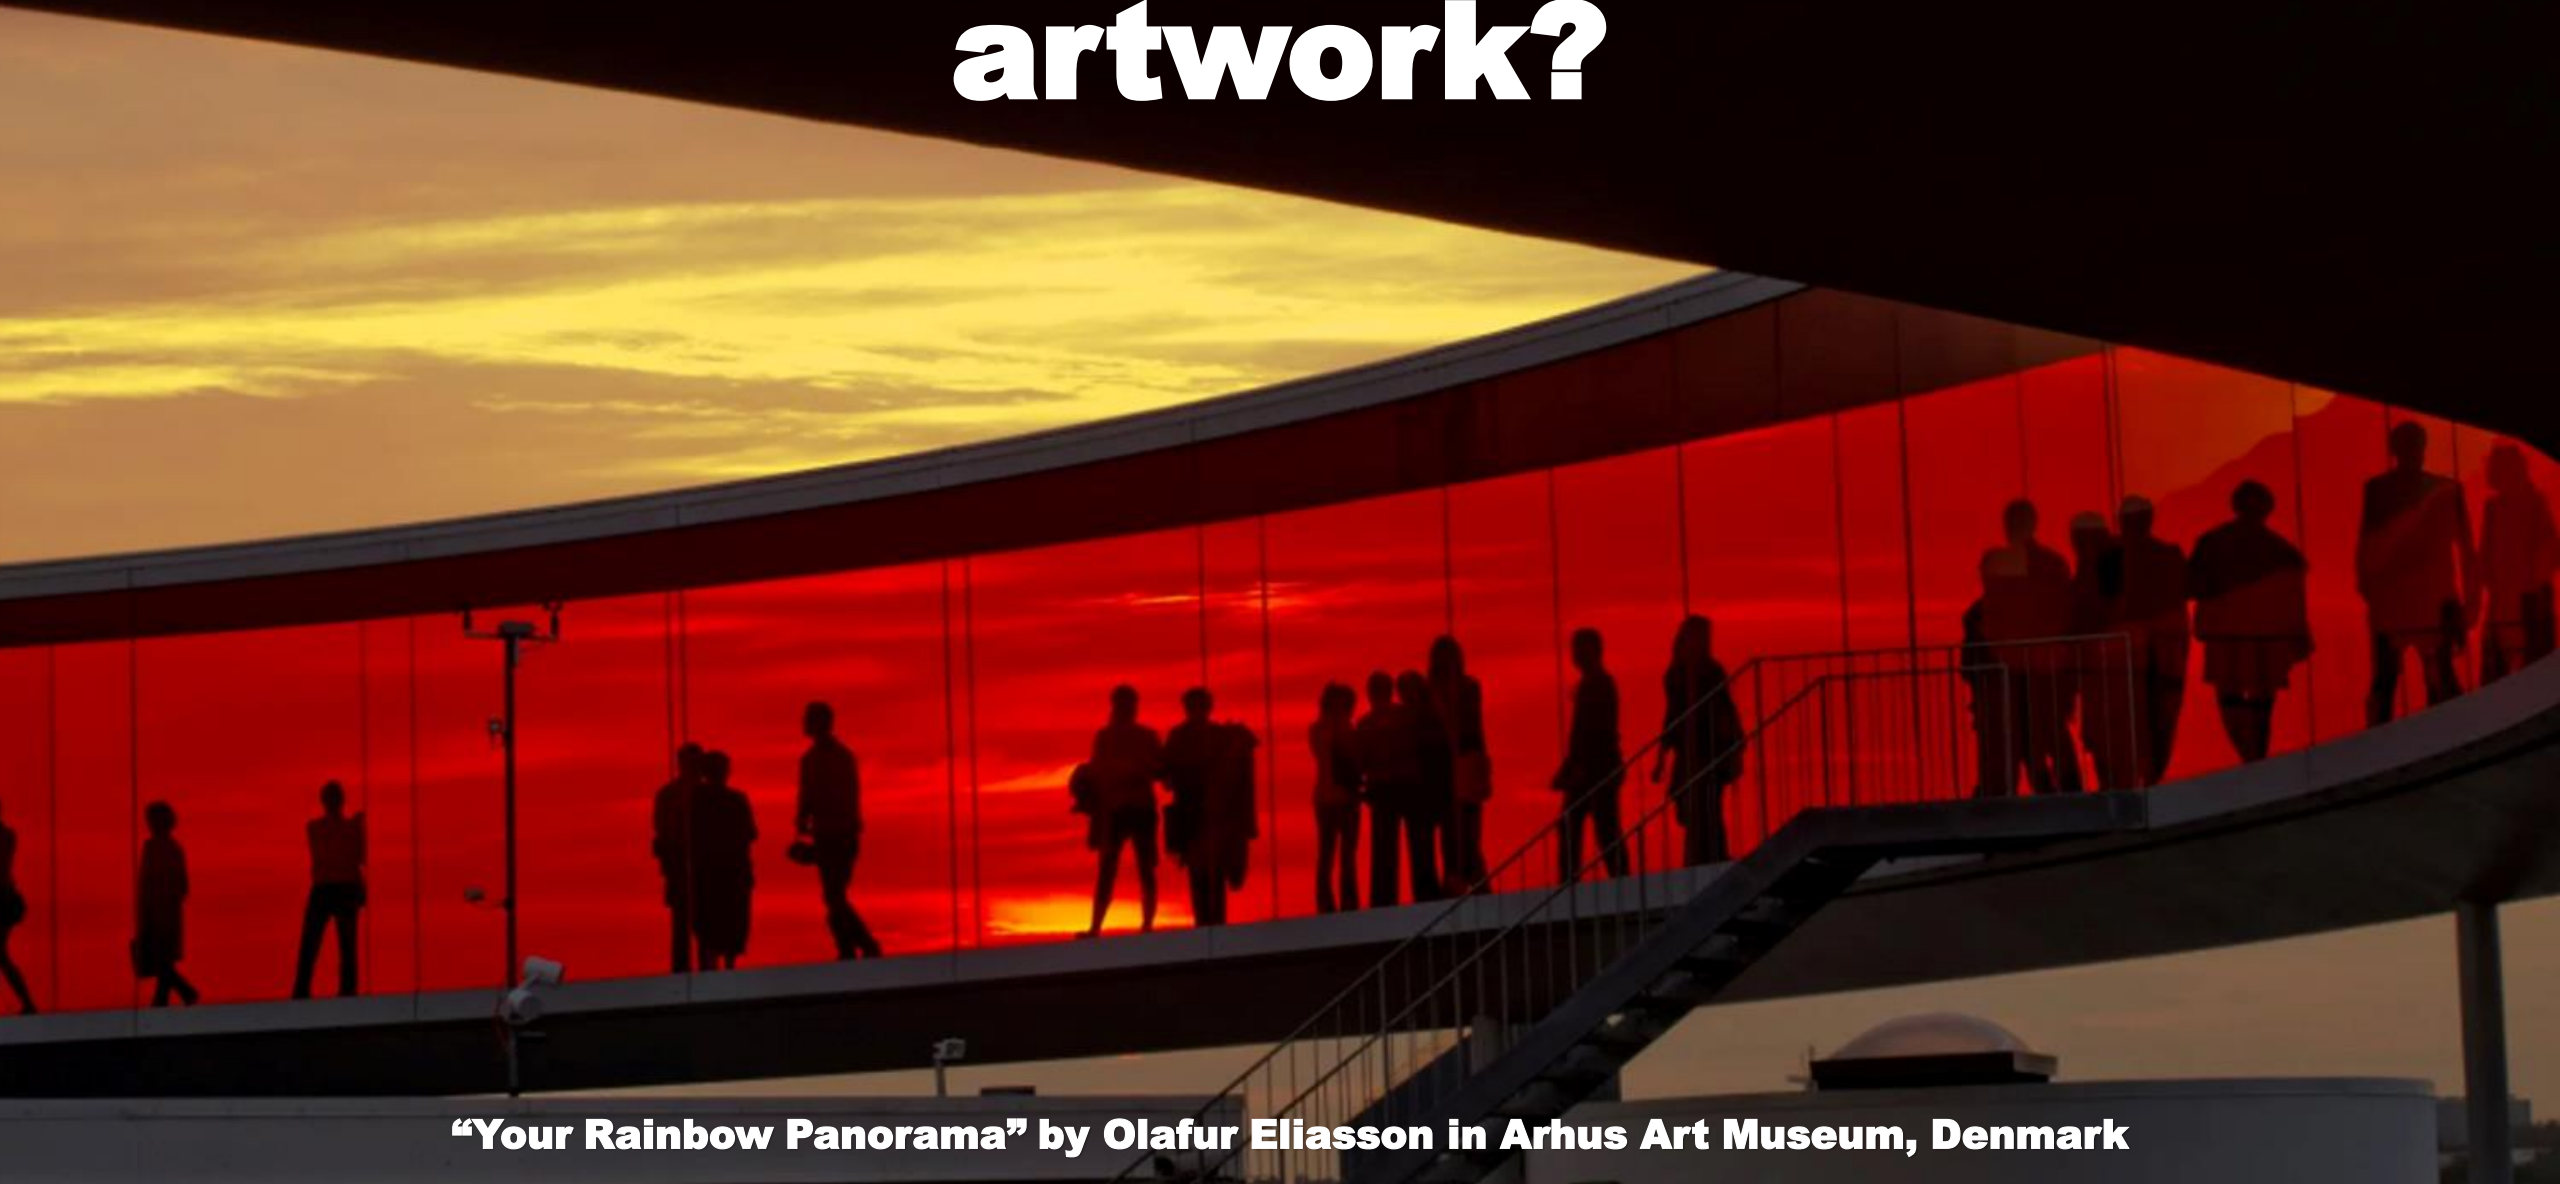

“ An **Art Installation** is a big artwork.
It fills a space.”

“ You **can walk inside it.** You can **feel it,**
not just look at it.”

He made people walk inside a rainbow!

Have you ever been inside an artwork?

“Your Rainbow Panorama” by Olafur Eliasson in Arhus Art Museum, Denmark

A man with a beard and glasses, wearing a long, dark green winter parka, stands on a dark, wet surface. He is leaning his right arm against a large, irregular block of white ice. The background shows a dark, textured ground, possibly a beach or a rocky shore, with some snow or ice patches. The overall scene is cold and wintry.

His Big Idea!

**Art can
help people
care
for the Earth.**

**He took big ice pieces
from Greenland**

**And he put them in city squares
in Copenhagen ...**

in London ...

in Paris ...

**People touched the ice
and saw it melt.**

They felt sad about it...

**The ice melts. It shows
what is happening to our planet**

**“What happens
when Earth’s ice melts?”**
